

Limited 5 year Light Commercial Warranty

Introduction

Lamett manufactures all of its flooring under the strictest of quality controls. Being a quality manufacturer, Lamett wishes to back its products with a clear warranty that applies to the original purchaser and the original site of installation only.

What this warranty covers

This warranty covers all Lamett solid and engineered wood flooring manufactured after 01 September 2006 and purchased from a Lamett Authorized Dealer in the USA or Canada. Closeouts, seconds, factory specials, and any other flooring sold "as is" are excluded from this warranty.

Who this warranty covers

This warranty applies to the original purchaser and the original site of installation only. It covers flooring that is used in a light commercial environment, such as business offices, clothing and/or toy stores or other non-food service stores in shopping malls.

Pre-installation warranty

It is the duty of the installer to inspect all flooring before installation. If before or during inspection the installer or buyer feels the floors is the wrong color, improperly manufactured, has finish problems, is off-grade or is the wrong gloss level, he/she should NOT install the flooring. Please immediately contact the retailer from which the flooring was purchased. No claims will be accepted for flooring which is visibly wrong if such flooring is installed. Installed flooring is deemed to be visibly acceptable. Since wood is a product of nature, not plastic, standard industry practice allows up to 5% of the flooring shipped to deviate from regular quality standards on milling, handling, finish and/or grade. This warranty applies only to material that is in excess of this 5%. Lamett will replace or refund the purchase price of material that is deemed not to meet the regular quality standards in excess of this 5%.

Why does the industry allow up to 5% of the wood to have minor issues?

When flooring is installed, naturally a certain percentage goes to cross cutting and fitting waste. Another small percentage of the flooring will go into closets and other unseen areas. It is assumed that an experienced installer will cross cut out small imperfections during fitting or put visibly unusual pieces in seldom seen or unobtrusive areas. By not removing 100% of the material with minor quality issues in the factory, we help save precious natural resources as well.

Finish warranty

Lamett warrants that the factory finish on its floors will not wear through for a period of 1 year from the date of purchase under light commercial traffic conditions and use. The pre-installation warranty above covers the replacement /refund for any flooring returned in excess of 5% of the total flooring shipped with visible flaws. This includes visible finish flaws, prior to installation.

If there is a problem with wear through, it must exceed 10% of the surface area for this warranty to cover. Changes in gloss level are not covered under this warranty, including shiny spots that might develop if you too aggressively rub in one spot. Over the course of time, it is normal for overall gloss levels to change and as such is not warranted.

Lifetime structural warranty

Lamett offers a lifetime warranty to the original purchaser that our engineered flooring products will not delaminate. Delamination is when any of the multiple layers making up the piece of flooring separates. All of our engineered flooring is manufactured to exterior / marine use standards. This warranty does not cover whole pieces of flooring coming off of the sub-floor, which is a problem with the installation process or glue, not our manufacturing process.

Although we guarantee our product will not delaminate, if our flooring is exposed to extreme humidity (whether from a wet sub-floor or flooding of your residence) or extreme dryness (less than 35% relative humidity) you will see slight shrinkage, swelling, cupping or even cracking of the solid wood wear layer. Wood is naturally hygroscopic (similar to a sponge) and such shrinkage, swelling, cupping or cracking due to extreme variations in humidity is to be expected and is not warranted for. Normally, the problems will solve themselves once humidity returns to the normal range of 45% to 60% relative humidity. Damage due to flooding should be covered by your home owner's insurance policy.
